

THE POWER OF SUGAR IN THE PALM OF YOUR HAND

USE SUGARCRM MOBILE AND STAY CONNECTED TO YOUR CUSTOMERS FROM ANYWHERE.

SugarCRM Mobile, included with every Sugar subscription, puts customer information at your fingertips no matter where you are. With SugarCRM Mobile's apps for popular phones and tablets, you'll have the details you need for fast, responsive customer engagement.

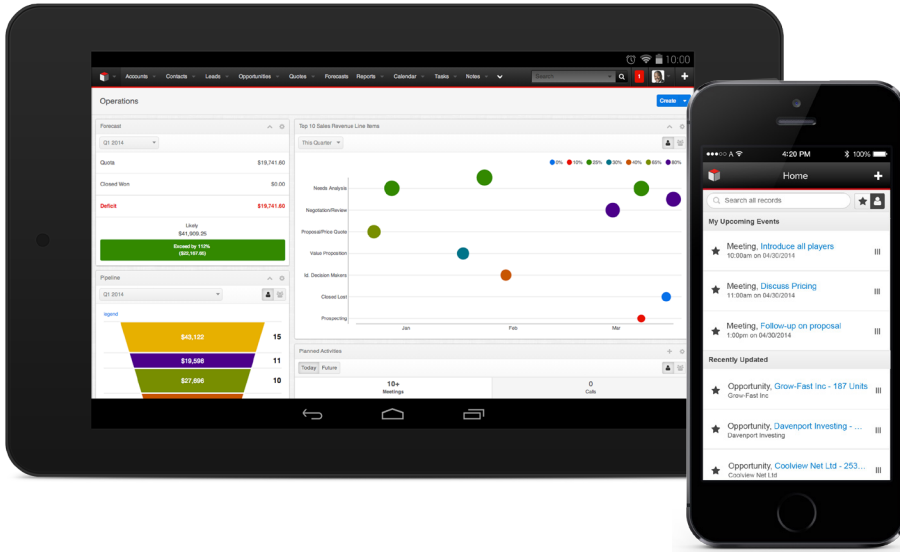

It's Easy – SugarCRM Mobile works on phones or tablets you already use, and setup is so simple you'll be productive in no time. Like Sugar on the desktop, it works the way you do so you'll get more done with less effort.

It's Fast – SugarCRM Mobile's Quick Create, dynamic search, quick summary, filters, and favorites let you personalize your Sugar experience, so you can locate and use key information to easily manage your sales, marketing, and support activities.

It's Efficient – Native device integrations such as click-to-call, click-to-text, and GPS mapping allow you to get the most out of every customer interaction by engaging your customers quickly and effectively from the device you have at hand.

It's Always Available – SugarCRM Mobile's offline sync capability ensures that the information you need most – records you own, favorite records, and records you are following – is available from your mobile device whether or not you're online.

“Sugar’s iPhone app looks great and has streamlined the sales process for our field team.”

Matthew Taylor
President & COO,
USAFact Riverside, California
